

Palmerton Area School District

Path to Reopening Schools: Health and Safety Plan

The Palmerton Area School District's *Path to Reopening Schools: Health and Safety Plan (HSP)* outlines our school district's reopening activities and instructional plan for the 2020-2021 school year. As directed by the Pennsylvania Department of Education (PDE), the HSP was developed and tailored to meet the unique needs of the district. It has been created after reviewing recommendations from various health organizations. All district activities have been informed by [Governor Wolf's Process to Open Pennsylvania](#), [Centers for Disease Control and Prevention, July 16 DOH/PDE Guidance](#) and the [American Academy of Pediatrics](#). The most up-to-date information can be found on the [What's New](#) page and the [Frequently Asked Questions link](#).

Governor Wolf's plan originally categorized the reopening into three broad phases: red, yellow, and green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions. The [categories](#) primarily utilized now are substantial, moderate, and low. This revised plan incorporates these new phasing designations in the headers of each focus area.

Depending upon the public health conditions in Carbon County, there could be additional actions, orders, or guidance provided by PDE and/or the Pennsylvania Department of Health (DOH). There may be times when the county moves into a different phase as public health indicators improve or worsen in our local area. The Palmerton Area School District's HSP accounts for changing conditions to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed. Without school board approval, the superintendent is authorized to clarify/update information in this plan particularly when/if additional directives or guidance is provided by the Governor, DOH, PDE, etc. The district makes every attempt to update Orders, guidance, etc. in this HSP in a timely manner. Please keep in mind that it is everyone's responsibility to be aware of and keep updated on the latest Orders and guidance from the DOH and PDE, even if a link in the HSP may be outdated and/or missing. If you see a link that needs to be updated, please email pasd@palmerton.org.

Questions regarding the plan should be sent to the following email addresses:

General Plan Questions: pasd@palmerton.org

Technology Related Questions: tech.dept@palmerton.org

Note: I attempted to highlight all important and/or large-scale changes/updates that were approved at the 11/25/20 board meeting. Information highlighted in green was updated on 12/3/20.

Palmerton Area School District

Path to Reopening Schools: Health and Safety Plan

Introduction: Key Strategies, Guidelines, Procedures and Addressing Community Spread

This action plan documents the Palmerton Area School District's thorough plan for each of the requirements outlined in the *Pennsylvania Department of Education's Preliminary Guidance for Phased Reopening of K-12 Schools*. The tables included identify a detailed summary describing the key strategies, guidelines, and procedures the PASD will employ to ensure the health and safety of stakeholders in the local education community. The HSP includes key information for employees, students, and families regarding the phased reopening of schools. Please be reminded that the purpose of the HSP is to address, as the name indicates, "health and safety" issues of the entire district. Other issues that are not directly related to health and safety will be addressed separately.

As required by PDE, our HSP was school board approved prior to the reopening of schools. It should be noted that this is a fluid document and, as such, may be changed if/when needed. The plan will not be reauthorized by the Board of School Directors unless the change is needed for PDE approval. Guidance that mandates Board reauthorization of the HSP to ensure compliance will require a Board agenda item for action. All other changes will be made at the superintendent's discretion.

The following resolution was adopted and approved at the July 21, 2020 school board meeting:

WHEREAS, the World Health Organization has declared the current outbreak of COVID-19 a global pandemic; and
WHEREAS, the Pennsylvania Department of Education has determined that the COVID-19 pandemic constitutes an "emergency" within the meaning of Section 520.1 of the Public School Code; and
WHEREAS, the Board of School Directors has determined that the risks COVID-19 presents to our students, faculty, and community requires an extraordinary response;
NOW THEREFORE, the Board finds and declares that the COVID-19 pandemic is an emergency within the meaning of Section 520.1 of the Pennsylvania School Code.

For the duration of said pandemic but in no event for any period exceeding four years, the Superintendent shall have the duty and the authority to develop a Health and Safety plan in a form and manner prescribed by the Pennsylvania Department of Education that ensures a minimum of 180 days of instruction, allowing for a minimum of 900 hours of instruction at the elementary level and 990 hours of instruction at the secondary level, employing any combination of in-person, virtual, and distance learning as the Superintendent deems appropriate to address the health and safety of students, faculty, and community, and the learning needs of students. Such instruction shall comply in full with the requirement of Chapter 4 of the regulations of the State Board of Education and with the curriculum standards published in accordance therewith.

Palmerton Area School District

Path to Reopening Schools: Health and Safety Plan

Plan Highlights

<p>Teaching & Learning</p> 	<p>The PASD is offering several options to meet the varying needs of our students. Parents will have the opportunity to select which option they prefer.</p> <p>A proactive shift to a temporary remote learning plan is included in this section.</p>	<p>Hygiene Practices</p> 	<p>Staff and students are expected to adhere to hygiene practices set forth by CDC and DOH (handwashing, sanitizing, respiratory etiquette). Personal Protective Equipment (PPE) will be utilized by staff and students in accordance with current CDC and DOH recommendations.</p>
<p>Daily Wellness Checks</p> 	<p>Prior to leaving home, students and staff members are required to take their temperature. Anyone with a temperature of 100 or greater and/or experiencing COVID-19 symptoms should not report to school/work and should contact his/her healthcare provider.</p>	<p>School Visitors</p> 	<p>Non-essential visitors and volunteers will not be allowed to enter the school building. Essential visitors should schedule an appointment, will be required to wear a face covering and complete a COVID-19 questionnaire upon entry into the building.</p>
<p>Face Coverings</p> 	<p>It is expected that all staff and students will wear approved face coverings in accordance with the PA Department of Health (DOH)/ Governor's order(s). Students must provide their own approved face covering/mask. Parents should put in place a cleaning process at home which will allow for routine cleaning of face coverings/masks.</p>	<p>Transportation</p> 	<p>Bus riders must wear a face covering/mask. Buses will operate with a maximum of two students per seat if needed. Cleaning and disinfecting frequently touched surfaces will occur. Walking to school and parent drop-off/pick-up are encouraged.</p>
<p>Cleaning & Disinfecting</p> 	<p>All cleaning supplies will meet or exceed local, state, federal, and CDC recommendations and guidelines. PASD staff use approved disinfectant and a process that ensures the cleaning and disinfecting of high-touch surfaces.</p>	<p>Meals</p> 	<p>PASD will implement alternate meal serving methods and may utilize additional spaces to establish a minimum of 6 feet of social distancing during breakfast and lunches. Meal areas will be cleaned and disinfected before and after eating.</p>
<p>Students or Staff Showing COVID-19 Symptoms While at School</p> 	<p>Anyone showing signs of illness will be quarantined and sent home immediately. If a case of COVID-19 is <u>confirmed</u>, the Department of Health (DOH) will provide guidance related to contact tracing, testing, quarantine, etc. This may result in a change to the instructional method, classroom/school closure, and/or a transition to online learning.</p>	<p>Social Distancing</p> 	<p>The PASD is planning for 6 feet of social distancing at all times. An exact 6 feet distance may fluctuate at various points during the day depending on the room size, number of students in attendance, etc. We will maximize the amount of space between students whenever possible.</p>

Palmerton Area School District

Path to Reopening Schools: Health and Safety Plan

Focus Area #1	Substantial Transmission or Red Phase	Moderate Transmission or Yellow Phase	Low Transmission or Green Phase
<p>Teaching and Learning</p> 	<p>All information in the red column of Focus Area #1 has been updated. Please review it carefully.</p> <p><u>Attestation Ensuring Implementation of Mitigation Efforts:</u> The district will follow the 11/24/20 Order of the Governor of the Commonwealth of PA Directing Public School Entities in Counties with Substantial Community Transmission to Attest to Health and Safety Protocols. Adoption of this Attestation will allow the district to continue offering the hybrid learning plan and in-person instruction IF the following conditions are met: - The district must read and comply with the 11/18/20 Updated Order of the Secretary of the PA Dept. of Health Requiring Universal Face Coverings including necessary exceptions and associated guidance, and affirm the public - Affirm the public school entity is complying and will continue to comply with and enforce the Updated Order of the Secretary of the PA DOH Requiring Universal Face Coverings, including necessary exceptions and associated guidance AND - The District has read and agrees</p>	<p>Please refer to the Low Transmission / Green Phase.</p>	<p><u>Instruction:</u> - The district's primary instructional method at all grade levels will include live instruction provided by PASD teachers.</p> <p>The PASD recognizes and acknowledges that there may be families that prefer a full virtual option during these challenging and uncertain times.</p> <p>We believe that the options provided will give students structure and routine, while being flexible enough to allow parents to be included in the decision-making process that they believe is in the best interest of their child.</p> <p><u>Instructional Day:</u> Elementary Level: Standard hours (no changes) Junior/Senior High: Dismissal will be at 2:05. The start time is unchanged.</p> <p>Please note that the Superintendent reserves the right to alter the instructional day as needed in accordance with the Resolution that was approved at the July 21 school board meeting.</p> <p>=====</p>

Path to Reopening Schools: Health and Safety Plan

Type of Reopening

Based on your county's current designation and local community needs, which type of reopening has your school entity selected? **(SELECT ONE BOX BELOW)**

- Total reopen for all students and staff (but some students/families opt for distance learning out of safety/health concern).
- Scaffolded reopening: Some students are engaged in in-person learning, while others are distance learning (i.e., some grade levels in-person, other grade levels remote learning).
- Blended reopening that balances in-person learning and remote learning for all students (i.e., alternating days or weeks).
- Total remote learning for all students. (Plan should reflect future action steps to be implemented and conditions that would prompt the decision as to when schools will re-open for in-person learning).

Anticipated launch date for in-person learning (i.e., start of blended, scaffolded, or total reopening): **August 31, 2020**

[Building Level Pandemic Teams](#)

As referenced throughout this document, there is a building specific plan for each PASD school. Principals created building level pandemic teams to gather input and feedback from stakeholders during the creation of each document. Faculty, staff, parents, and others were directed to contact the building principal if interested in serving on this team. There are many people who provided their assistance in developing these plans. Those people are identified on each individual plan.

Please click on the links below to access each building level plan:

Roles and Responsibilities for Health and Safety Preparedness and Response Planning

- Prevent accidents, injuries, and work/school-related illnesses in the schools.
- Create and implement health and safety policies in accordance with the latest legislation and to ensure that these policies are implemented by staff.
- Create and implement health and safety procedures/protocols/practices in accordance with the latest guidance and recommendations for the Department of Health (DOH) and Center for Disease Control (CDC) and to ensure that these procedures/protocols/practices are implemented by staff.
- Create a Health and Safety Plan and ensure it is regularly updated to reflect any changes to the law and/or guidance from federal, state, and local health officials. It's their responsibility.
- Ensure that each member of staff is aware of and adheres to the Health and Safety Plan.
- Provide regular inspections and risk assessments and ensure that any hazards or defects are rectified immediately.
- Maintain records and thoroughly investigate any accident, community spread illness, and recommend any improvements in health and safety standards if required.
- Provide training to all staff in health and safety issues and advise them on protective clothing and equipment where necessary.
- Serve as the key point of contact for any member of staff who has a query or concern regarding the health and safety of the workplace.
- Work closely with management, as well as health and safety inspectors.

Health and Safety Plan Communications

Timely and effective family and caregiver communication about health and safety protocols and schedules is critical. The district has established and will maintain ongoing communication with local and state health authorities to determine current mitigation levels in the county and surrounding counties. Health and Safety Plan Communications is documented with the following components listed in the table below.

This section of the plan will be updated as needed.

** "PASD Community" refers to PASD employees, parents/guardians, students, school board members, and all other members of the larger PASD community.*

Topic	Audience*	Lead Person and Position	Mode of Communications	Start Date	Completion Date

Path to Reopening Schools: Health and Safety Plan

Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for Palmerton Area School District reviewed and approved the Phased School Reopening Health and Safety Plan on July 28, 2020. Revisions were reviewed and approved on October 6, 2020, November 17, 2020, and **November 25, 2020**.

The plan was approved:

Yes **No**

Affirmed on: **July 28, 2020 (original), October 6, 2020 (revisions), November 17, 2020 (revisions), and November 25, 2020 (revisions and Attestation form addition)**

By:

Kathleen Fallow, PASD School Board President

**Electronic signatures on this document are acceptable using one of the two methods detailed below.*

Option A: The use of actual signatures is encouraged whenever possible. This method requires that the document be printed, signed, scanned, and then submitted.

Option B: If printing and scanning are not possible, add an electronic signature using the resident Microsoft Office product signature option, which is free to everyone, no installation or purchase needed.

Attestation Ensuring Implementation of Mitigation Efforts

Whereas, the commonwealth is experiencing its highest daily case counts since the beginning of the 2019 novel coronavirus (COVID-19) pandemic, resulting in increased hospitalizations, nearly 10,000 deaths, and heightened risk to the most vulnerable Pennsylvanians;

Whereas, the Wolf Administration has identified new mitigation efforts, including an attestation process for public school entities that elect to continue in-person instruction for students in counties designated as exhibiting "Substantial" transmission of COVID-19 for two or more consecutive weeks based on a disease incidence rate of 100 or more cases per 100,000 residents and/or a polymerase chain reaction (PCR) percent positivity rate of 10 percent or greater;

Whereas, as of November 23, 2020, 59 of Pennsylvania's 67 counties met one or both of these standards;

Whereas, Pennsylvania recommends that school entities in counties with [Substantial disease transmission transition to remote-only instructional models](#);

Whereas, as of November 20, 2020, many public school entities have exercised their local discretion to continue in-person instruction for all or some students;

Whereas, the resurgence of COVID-19 across the nation, region, and commonwealth requires more consistent and intensive implementation of disease mitigation efforts;

Whereas, these mitigation efforts include an attestation process for any public school entity (a "public school entity" is defined as a school district, intermediate unit, charter school, cyber charter school, or a career and technical education center) that elects to continue in-person instruction as of November 30, 2020 while the county in which it is located is under a Substantial disease transmission designation for at least two consecutive weeks; and

Whereas, this attestation process supplements and does not supplant existing public health guidance issued by the Pennsylvania Department of Health and the Pennsylvania Department of Education;

AND NOW, THEREFORE, the president/chair of the school entity's governing board and chief school administrator, in accordance with the Order of the Secretary of Health dated November 24, 2020, entitled [Order of the Secretary of the Pennsylvania Department of Health Directing Public School Entities in Counties with Substantial Community Transmission to Attest to Health and Safety Protocols](#), attest to one of the following (SELECT ONE OPTION):

All or some of the students within the public school entity are currently receiving in-person instruction and:

1. We have read the [Updated Order of the Secretary of the Pennsylvania Department of Health Requiring Universal Face Coverings](#), effective November 18, 2020, including necessary exceptions and [associated guidance](#), and affirm the public school entity is complying and will continue to comply with and enforce the Updated Order of the Secretary of the Pennsylvania

Department of Health Requiring Universal Face Coverings, Including necessary exceptions and associated guidance; and

2. We have read and agree to follow the Recommendations for Pre-K to 12 Schools Following Identification of a Case(s) of COVID-19, when cases of COVID-19 occur within the public school entity.

OR

- The public school entity has transitioned to a fully remote learning model and will continue to use a fully remote learning model until the county (or counties) in which the public school entity is located is no longer experiencing Substantial disease transmission for two consecutive weeks.

*** A public school entity in a county with Substantial level of disease transmission that is currently providing a fully remote learning model and that elects to transfer to in-person instruction must resubmit this attestation prior to providing in-person instruction.

Palmerton Area School District

(Name of Public School Entity)

affirms that it has

attached this signed Attestation to its Local Health and Safety Plan (the "Plan") in order to reflect provisions above, and that, by doing so, this attestation becomes part of the Plan and has been or will be fully implemented by November 30, 2020, or three business days after the county in which the public school entity is located has been designated as exhibiting Substantial disease transmission for the first time, should the public school entity in a county with Substantial level of disease transmission for two or more consecutive weeks elect to offer or continue offering in-person instruction for all or some students; and

Further, the Local Health and Safety Plan, inclusive of this attestation, has been posted on the public school entity's publicly accessible website and filed with the Pennsylvania Department of Education by email submission at RA-EDCONTINUITYOFEDD@pa.gov.
